PT. Hacktivate Teknologi Indonesia – Jakarta, Indonesia <i>Android Java for Mobile Developer SIB Kampus Merdeka</i>	Agu 2022 – Des 2022
SMAN 7 Denpasar – Bali, Indonesia <i>Majoring in Science and Mathematics</i>	Jun 2017 – Jun 2020

EXPERIENCE

Dies Natalis Fakultas Teknik <i>Chairman</i> Managing the time schedule, budget planning, the committee and contingents involved.	May 2023 – Okt 2023
Senat Mahasiswa Fakultas Teknik Universitas Udayana <i>Head of Division V</i> Handling research and development, public relations, and journalism division.	Jan 2023 – Des 2023

PROJECTS

Design and Development of a Mobile-Based Outsourcing Information System Using the Flutter Framework
The system allows outsourcing clients to search and order services more efficiently, providing a payment solution through a payment gateway to streamline transactions via the application. The system is built using the Software Development Life Cycle (SDLC) with a waterfall model. The system utilizes Go technology as the backend service, Flutter for creating the client application, and MySQL as the Database Management System (DBMS). [Github](#)
